“ I miss you Dad more then I ever imagined. I love you. I know your out of pain and suffering now but it doesn't make it any easier. Had so much to tell you. You will forever be a part of me...as mom says I'm a just like me Dad. I'm ok with that because you were a good man. I'll never forget fighting with my brothers about who got to sit next to you on the Hump (as we called it) in your car, I'll miss your huge kisses. Say hi to Grandma, don't be to hard on her LOL I love you to the moon and back....we will see each other again.
